

Problem in Ocean Manager - Error Loading Callback Data

When using the Internet Explorer v7.0, you may encounter the following error when trying to expand the Workspaces / Directories in OceanManager.

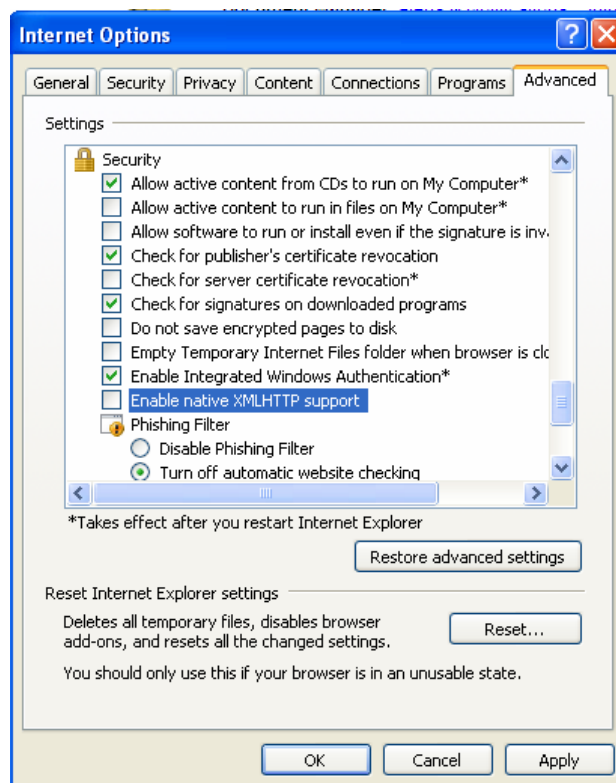

Solution:

1. Open **Internet Options** from **Tools** menu of Internet Explorer v7.0.

2. Select the **Advanced** tab from **Internet Options** dialog. Uncheck **Enable native XMLHTTP support** option in **Security** group of the **Settings** list box. Click **OK** to save and exit.

3. Click **Refresh** and try to expand the Workspaces/Directories again.
